War and Business Conditions

War is a dreadful business, for its object is simply to murder to kill people. But, a fatal act is, humanity will resort to it. Aside from its horrors, it generally helps the business interests of some countries. Our own war with Spain and the Philippines has caused Uncle Sam to turn loose many millions of dollars to the people for their meat, bread, grain, horses, mules, clothing guns, canteens, wagons, and almost every thing. These millions of dollars put in circulation among the people has contributed toward the prosperity of all—that is, the financial prosperity. The British Boer war has caused, and will continue to cause, Great Britain to turn loose her millions and millions of dollars for like purchases and purposes. This is why many people favor wars. They call it patriotism; but, if it is a dear price to pay for prosperity. All this sounds brutal, and so it is for war is brutal.

FIFTY NINE indictments for illegal voting at the recent elections have been found against Puerto Ricans—forty against one man.

So it seems our new grooves alone are quick to catch on the race-track of the ballot box.

THE balloting for U. S. Senators in the Kentucky Legislature commences Jan. 16. There seems to be no doubt but that Hon. Joe C. Blackburn will be commonwealth by the Democratic caucus, and promptly elected by the Legislature.

The office of Registrar of the Land Office in Kentucky ceased to be a separate department last Monday, this office being abolished by the State constitution. The business of this department will hereafter be transacted in the State Auditor's office.

ALBERT WHITE, the colored individual who was secretary of the Republican State Convention has announced his candidacy for delegate at large to the next National Republican Convention.

THE French press eagerly considers a war with England at this time a trap to destroy the French Republic. The French press are in part right, and in addition to the destruction of the Republic should be added the annihilation of the French navy.

THE scene of the fighting in South Africa is rather more extensive than the entire conflict of any east of the Mississippi River, and the country is naturally far more difficult. There was when the British are disappointed in their idea of a walkover.

THE Republicans are taking big chances when they seek to shut out the delegates of the southern states from their caucus influence in the affairs of the national convention. There was when the U. S. P. relied on the Solid South to keep it in power, but that was long ago.

THE soldiers in Africa, being South of the equator, are now sweltering in the heat of mid summer while the British are huddling in the winter sleet and snow. It must have been novel to the British to celebrate Christmas with the thermometer at 95 to 100 in the shade.

THE Republican party is now proceeding to show the people what prosperity times are like. It is said that everything is on a boom—manufacturers are running full blast with advanced wages for the workmen. But how is it with the consumer, with the poor, the wearing apparel and in fact everything else advanced to a enormous price, while wheat, &c., and nearly all products are at a very low price.

ONE year ago ten bushels of corn would buy 100 pounds of buttered wire. Today it will take 20 bushels to buy that amount of wire. One year ago ten bushels of corn would buy a keg of nails, to buy it will require twenty bushels. Wire a year ago was \$2.25, now \$4.00; nails have doubled in price; lumber has gone "out of sight," farm implements are a snap. Has the price of wheat, corn, cattle, hogs, or any other product of the farm doubled in the last year?

At a late hour after having the young hostess good night was departed to our respective homes.

Last Wednesday evening a large crowd gathered at the home of Mr. and Mrs. J. W. Maddox. Those present were:

ONE OF THE NUMBER.

Having stirred Ken of Chamberlain's Cough Remedy.

Manager Martin, of the Pharmacy store, informs us that he has a great stock of Chamberlain's Cough Remedy. He sells five bottles of this medicine to one of any other kind, and it gives great satisfaction. In these days of gripe there is nothing like Chamberlain's Cough Remedy to stop the cough, cool the sore throat, loosen the phlegm and give relief in a very short time. The sales are growing and all who try it are pleased with its prompt action.—South Chicago Daily Calendar. For sale by Cowgill & Cowgill, Hickman, and A. W. Shaw, State Line, drugists.

Mexican Soldiers Widows.

Washington, Dec. 15.—Senator Lloyd says the senate will introduce a bill in the senate to increase the pension of widows from \$5 to \$10. A great many of these pensioners are living in Tennessee, Kentucky and Arkansas.

The Floor Session.

The arrival of American four assigned to Portuguese ports at Delagoa Bay by a British ship is a matter of international importance in the abstract, but is unlikely to have any direct bearing upon the relations of the two countries. The relations between America and England are such that the matter will not be pressed, but an amicable settlement will be made at some future time when war clouds no longer menace England.

Britain's Awful Headlock.

The ultimate triumph of the British arms in South Africa. There can be but one result of a contest waged between the armies of Great Britain and the handful of Boers who are fighting for their independence without the prospect of a friendly hand stretched out from any quarter to help them. Inexhaustible resources, both as to men and money, pitted against poverty and partition are bound to win.

It has been demonstrated repeatedly in every state in the Union that many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. W. F. Fisher of Liberty, Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years, and have found it with perfect success. We believe that it is a sure cure for croup, and that it is a very good remedy for all the ailments of the children, several times. The remedy is for sale by Cowgill & Cowgill, Hickman, and A. W. Shaw, State Line, drugists."

A Wrong Idea.

A great many seem to think Roberts, of Utah, is being kept out of his seat in Congress because he is a Mormon; and some of the leading daily papers are evidently unable to rid themselves of this erroneous idea. Roberts is not being persecuted because he is a Mormon, but because he is a polygamist. One of the strongest principles of our Constitution is the guarantee of religious liberty, and this does not exclude Mormonism. A Mormon is not necessarily a polygamist; neither is a polygamist necessarily a Mormon. The object of law to Roberts is that he is living with three women, all of whom he claims as his wives, and on this account alone can he be prosecuted.—Deseret Enterprise.

50th Anniversary.

The Dispatch, usually correct and lucid says that the A. D. I. commenced 12 months after the birth of Christ. The Dionysian era commences or was intended to commence with the birth of Christ, and the epoch was completed in the first 12 months. No matter about errors of computation, the Christian era was intended to commence with the event, and of course must be counted from the birth of our Savior and does not commence one year, 3 years nor 5 years or any other date either before or after that period.

The Papalist Renegades.

Some time ago ex-Senator Peffer who held office as a Republican but was formerly a republican, announced his return to the republican fold and so now came preacher Kyle, the South Dakota senator and declared that he has had enough of third partyism and that as to the currency question he is tired of standing out against the logic of facts. He says that he will hereafter act with the republican party and support its policies both as a senator and a citizen.

A President.

"How do you like this weather?" "Not much; I'm 'fired it's going to rain." "Well, how's time with you?" "Sorter so-so—but they won't last." "Folks all well?" "Yes, but the measles is in the neighborhood." "Well, you ought to be thankful that you're a livin'." "I reckon so; but we've all got to die."—Atlanta Constitution.

KECKY members of Congress were assigned to committees as follows: Wheeler, Naval Affairs; Rhea, Labor and Banking; Currier, Pugh, Appropriations; Smith, Judiciary; Berry, Rivers and Harbors and Foreign Affairs; Fitzpatrick and Hoar, Pension; Turner, Militia and Alcohol Traffic; Gilmer, private Land Claims and Expenditures in the Postoffice Department.

IF WE VOTED WITH MACHINES.

Ohio Paper Says Our Troubles Would be at an End.

Cleveland Leader: Money is being raised with which to meet the expense of contesting the election of all the state officers recently inaugurated in Kentucky. The state is likely to be kept in turmoil for several weeks at least and grave injustice may be done before the contest is finally disposed of.

All troubles of that sort could be avoided if voting machines were used instead of ballots in conducting elections. When voting is done automatically the chances for fraud will be reduced to the minimum and an end will be put to the uncertainty that always follows a close election. The voting machine does its work perfectly. It will not falsify the returns, nor can it be beaten by the designing voter.

There are many arguments in favor of the adoption of machines. Of course the first cost of the mechanical device is an item of much consideration, but that will be offset by the reduction of the usual expenses of the election. There will be a big saving on the printing of ballots. Then again it will be possible to disagree with the services of many of the election officials who are now employed, and to reduce the pay of those who are now needed. There will be no counting of ballots, for the result of the election is stated accurately by the machine at the conclusion of the voting.

ABOUT the most notable accomplishment of the high tariff these days is to prevent Americans from buying American-made goods as cheaply as they are sold to Europeans.

An advance of 10 per cent. in wages, affecting between 70,000 and 75,000 persons, went into effect Monday in many of the cotton manufacturing cities and towns of New England.

THE GREAT PRESIDENTIAL CAMPAIGN OF 1900.

The politics of the great political parties are now being tested and the candidates decided. The vote of the people as recorded by ballot at the approaching Presidential election will probably decide the policy of the nation for the next decade. Every citizen must study the great questions that are to come before the people. This can be done only through the medium of a great newspaper. Now is the time, therefore, for every voter to subscribe for the best and most reliable newspaper obtainable. The great Weekly Republic covers the whole field of political news. While it is democratic in publication, it is impartial in all political parties without prejudice. Its telegraphic and cable news service is superior to that of any other paper. Its special features are the best. In fact, it is the paper for that large class of readers who cannot afford to subscribe to the daily papers.

Attention is also called to the Republic's Sunday Magazine. Its half-tone illustrations alone are worth the subscription price. It is made up of special articles by the best literary talent, embracing a variety of current subjects of interest. News features of the highest interest are illustrated and enlarged upon. For the benefit of the ladies the latest fashions are handsomely illustrated. The Republic Sunday Magazine is always interesting to every member of the family. The subscription price of the Weekly Republic is \$1.00 per year. The Republic Sunday Magazine is \$1.25 per year. Both papers are now being offered at the very low price of \$1.50 a year. To secure this low rate both must be ordered and paid for at the same time. Address all orders to THE REPUBLIC, St. Louis, Mo.
